'round town

with Betty Allen...

A pleasant and contented looking man is Henry Dehm, who for years has made his living by collecting seeds. He was in Campbell last week making the rounds. He never takes seeds unless he has permission first and after securing the necessary ok he carefully took some seeds from the pepper trees in front of the library.

★ ★ ★

Dehm, whose name is pronounced "dim", says he has never been refused permission to take seeds, and he has traveled the length of the Pacific Coast in his unusual occupation. In San Francisco he wanders about the parks and also makes the rounds of private residences. Most of his seeds, sold to large seed companies, eventually arrive in Europe, and the quiet little man likes to think he has a small part in the rebuilding of Europe.

★ ★ ★

Joe Agostinho says he's going back in the insurance business, but isn't it possible that all those remarks about his resemblance to Truman have resulted in a good offer to serve as a double?

★ ★ ★

The head of the house has gone a'hunting. All of the rugs have been taken up in preparation for bear rugs and the cookbook chapters dealing with bear steaks and venison chops are well thumbed.

★ ★ ★

Guy Farley reports that the Republicans have a slight edge on the Democrats in the local registration.

★ ★ ★

When you get your Community Chest pledge see if you can detect the "Case of the Careless Proofreader". If you are thrifty by nature you might try saving it until 1964!

★ ★ ★

Yesterday's meeting of the Planning Commission bore out the fact that Campbell is certainly ready for incorporation. At the hearing were many local residents, inconvenienced in the first place by the necessity of going into San Jose in the middle of the afternoon, who were further inconvenienced by the delay of the Campbell industrial zoning hearing until almost an hour past the time set.

★ ★ ★

After the hearing was declared adjourned and the Board was discussing the matter informally, W. B. Weston, chairman of the Board, was heard to say rather wearily to Herbert Shadle, member, "Well, you folks out there are going to incorporate pretty soon, and take care of these things yourselves, aren't you?"

HAS NEW BUSINESS

Enthusiastic about his new business is A. L. (Bud) Lord of Walnut Drive. He is selling and servicing Randolph fire extinguishers, suitable for use in homes, shops, cleaners, garages, theaters, hotels nad laboratories. Lord is well informed on this subject for he served 23 years on the Los Gatos Fire Department.

LOVEDAY PLEADS GUILTY ON THEFT CHARGE

Gilbert "Gib" Loveday, pleaded guilty before Justice of the Peace John Blaine last Monday to a charge of burglarizing the Campbell Billiard Parlor of $100. Sentence will be given on or before next Tuesday.

The theft is believed to have occurred last Friday afternoon when Walter Dahms, manager of the establishment, closed the place to attend the funeral of Mrs. Joseph Subdon. On his return he discovered that Loveday had concealed himself on the premises before Dahms left. Loveday was allowed to leave and shortly after his departure Dahms discovered $100 missing from the cash box.

Loveday was discovered that evening by Constable Ethan Lanphear in the San Jose City jail where he had been taken after being arrested on a drunk charge. Lanphear transferred him to the County jail on the complaint issued by the pool hall and discovered on his person a ticket to Texas. Lanphear also traced his movements in San Jose and found that he had spent a considerable sum of money there. Very little of the $100 was left.

Buccaneers Tangle With Carmel

Saturday, Oct. 5, will mark the opening of the Campbell Buccaneers' 1946 fotball season, with an afternoon contest between the Bucs and the Carmel High eleven.

Returned from service in the U. S. Navy to pilot the home team is Coach Herb Hudson. His squad, led by a light but powerful line, will be running from the T formation with the quarterback spot abily filled by veteran Wayne Buck. Also from last year's first string is left half Dick Gouley. Dick was hurt last year, but in practice looks like his old, line-busting self again.

Saturday's tilt opens a nine-game season for the local eleven. Six are league games; that is, with other teams in the Santa Clara County Athletic League.

The Bucs' second start this year will be with Gilroy, who play host to our team on Oct. 11. It will be a night game with the 130 exponent team leading off a preliminary game at 6:15.

Campbell has a fast powerful backfield in Wayne Buck, quarterback; whirlwind J. Kuykendall at right half; Jack O'Neal in the fullback spot, and charging Dick Gouley at left half.

Probable starting lineups:

Campbell—Gazay, re; Russo, rt; M. Estrada, rg; Carsiglia, c; Rizzuto, lg; Cutting, lt; L. Estrada, le; Buck, q; Gouley, lh; Kuykendall, rh; O'Neal, fb.

Carmel—Wettenger, re; Moore, rt; Goodrich, rg; Greenan, c; Dewar, lg; Pitman, lt; Harber, le; Warner, q; Bell, lh; Berry, rh; Temuleman, fb.

Longest Record Broken

The longest record of no fire alarms in the history of the Campbell Fire Department was broken last Saturday when the department was called to extinguish a grass fire on Page Street which menaced several small dwellings.

From June 29 to Sept. 28 there were no fires in Campbell. This is just one day short of being three months. The remarkable part of this record is that the time concerned was the most dangerous months of the year for fire.

The last fire to which the department was called was a dwelling in back of Fred Jones' Service Station, which was completely demolished.

He stated that formerly cultural education was emphasized and that there was conflict when practical subjects, such as manual training, were instituted.

The County Planning Commission yesterday approved industrial zoning for Campbell in a modified and much smaller area than was originally sought.

Starting at Whiteoaks Road, the approved area lies on the east of the railroad tracks, taking in the lumber yard and gravel pit. Bounded on one side by the railroad tracks, it follows the center of the creek bed to a point approximately 200 feet south of Central Ave.; then crosses to run parallel of Central Ave., then turns north about 150 feet back of Railroad Ave. to include the present industrial zone, skirts the El Patio tract and then expands on both sides of the track to a point 200 feet south of Hamilton Ave.

Since the irregular shape of the area is difficult to describe, Herbert Shadle, Planning Commission member, has placed in the window of The Press office for a few days a map showing the exact boundaries as defined by a heavy blue line.

At yesterday's hearing interested residents spoke both for and against the zoning and the names of the many who had written letters favoring the zoning change were read by Nestor Barrett, secretary.

W. B. Weston, chairman of the Board, cast the only dissenting vote against the rezoning which was sponsored by the Campbell Taxpayers' Association and the Chamber of Commerce.

BYRNES MAY RESIGN

WASHINGTON — Friends of Secretary of State Byrnes have received word that he may have to resign shortly after the end of the Paris peace conference—for reasons of health. The news has come as a great blow to President Truman, who has leaned heavily on Byrnes.

Byrnes' doctors have told him that he might be able to continue as Secretary of State provided he took long and periodic rests. However, Byrnes does not believe he should do this. Cordell Hull used to spend several months a year away from his office. In 1942, our first year in the war, he was away a total of six months.

Byrnes has told intimates that conducting the foreign affairs of the United States today is a constant, day-to-day job. He does not feel that a Secretary of State can be off the job a minute, and he does not believe it would be fair to the American people for him to take a prolonged rest.

For instance, immediately after the Paris conference is the assembly of the United Nations, now already late. After that comes the Pan American security conference and the regular Pan American conference, to say nothing of various meetings of the United Nations security council.

★ ★ ★

WORKS AT TERRIFIC PACE

Byrnes has been hopping back and forth across the Atlantic ever since he became Secretary of State. In 15 months he has made seven round trips. Cordell Hull, in 12 long years, made only one air flight across the Atlantic, plus two leisurely steamship trips to Latin America.

In Paris, Byrnes has worked at a terrific pace. Sitting in the peace conference all day, keeping on the alert to watch the moves of rival delegates, is a grueling job. It would wear out a younger man. But by going to bed every night immediately after dinner, Byrnes has kept going.

However, he is no longer young—68—and when the peace conference closes, he will have to decide whether to follow his doctor's advice and resign, or face eventualities.

MONTY'S POLITICS

Some of those who served in the American command in Europe are lifting their eyebrows over the U. S. visit of dapper, publicity-wise Field Marshal Viscount Montgomery.

Seared in their minds during those bloody months in Europe are certain events involving the famed Monty which personally they would like to forget, but which nationally they hope won't be forgotten—especially in view of the fear of impending war.

General Patton's officers, for instance, remember Patton's race up the west coast of Sicily, in contrast to Montgomery's snail's pace up the east coast. Nobody can blame a commander for having hard luck or necessarily going slow. But what only a few officers around Patton know, and what has never been published, is the telegram he received from the vaunted Montgomery.

Montgomery actually sent Patton a telegram asking him to halt his offensive and wait until he, Monty, caught up. In other words, American troops were going too fast for Monty. He was afraid Patton would envelope not only the enemy, but also the British army. Inside fact is that Patton pretended he never received the telegram, showed it only to a few top aides, later told Monty it never arrived. Patton's army kept on moving.

Later, in the Normandy offensive, Gen. Omar Bradley's officers recall all too vividly how Monty was supposed to break through at Caen, but sat there day after day, yelling at Eisenhower for more troops (American troops). Finally Bradley, Patton and Joe Collins made the American breakthrough at St. Lo, leaving Monty still sitting at Caen.

British papers all this time were featuring headlines: "Monty Pivots at Caen." Actually all the pivoting he did was to break up a few tanks in the Normandy hedgerows.

Shortly after that Eisenhower made General Bradley top field commander, giving him a higher place than Montgomery — a shift that brought such a roar from the British press and Mr. Churchill that Eisenhower later took two armies away from Bradley and gave them to Montgomery.

MERRY-GO-ROUND

President Truman has told congressional friends he will summon a special session of Congress following the November election to deal with skyrocketing prices, the continued housing shortage and other matters, providing the Republican party does win control of the House of Representatives or make material gains in the Senate. . . . Truman again has offered the chairmanship of the atomic commission to Undersecretary of State Dean Acheson, but Acheson again declined.

Letter to the Editor

Dear Editor:

Articles appear in The Campbell Press about the conditions of our streets. They are certainly a disgrace to the city, but unfortunately we cannot alter the situation until we are incorporated.

I recently went to a lot of trouble in arranging with the railway company to clean up the park across the railway tracks. They sent out a gang of men, and it was satisfactorily cleaned. However, I visited it again two days later, and to my disgust found it in as bad a condition as before. Surely the people who make use of this park for eating their meals and parking their cars should have a little consideration. If they will not do so, there is only one thing we can do, and that is to persuade the railway company to fence it in. This would deprive them of the use of the park for all purposes, and should be avoided if possible.

Another matter which must receive serious consideration in the near future is the congestion of traffic in the main street. Much of this could be avoided under the existing conditions, but again, the only solution is incorporation. Then we could adopt ordinances which would effectively put a stop to the annoyance.

It is gratifying to find that at last the people of Campbell are awakening to the necessity of incorporation. The merchants in the city are approving the matter and hundreds of the other residents are signifying their approval. New members are daily joining our Taxpayers' Association, which, with the Chamber of Commerce, is sponsoring incorporation, and provided the people will attend our meetings and find out what incorporation really means to them and the many ways in which they will benefit, I am sure we shall be able to bring the matter to a successful issue.

It has been demonstrated lately that if Campbell is to progress, it is absolutely necessary that we govern ourselves, and take the whole matter out of the hands of the County authorities. They do not know the requirements of the district, neither do they come in personal contact with the people to discuss local problems.

There are many matters which should and must be remedied, and we are relying upon every person who is entitled to vote, to cast their votes for incorporation when the time comes.

I would point out that there are nearly 400 people in the district who have not registered, although they are fully entitled to do so. It is quite a simple matter for them to call at Farley's office on Campbell Ave. Although it is now too late to register for the November election, there is still time to register for the Special Incorporation Election. It is also necessary that any voter who has moved his residence should register his change of address.

I make this appeal to all residents to take an interest in Campbell, and they will then find that Campbell will take an interest in them to a far greater extent than the Santa Clara County officials have done or will do.

Yours faithfully,
GEO. E. ARLIDGE,
Secretary, Campbell Taxpayers' Association.

CAMPBELL GRAMMAR SCHOOL NEWS REPORTS

The Campbell Grammar School has an enrollment of 1500 children. Ten new teachers have been added to the staff this year. All of the grades are very crowded. All classes seem to be off to a good start. Many interesting units and activities are being developed. All the rooms have attrative things for the children to enjoy. Miss John's low third grade room has fish bowls and health charts. Mrs. Ingram's class has ornamental trays and food charts.

—Marlene Strong, Low 8th.

The pupils in Mrs. Saveker's high fifth grade are studying Mexico and Central America. Their room is full of curios from Guatemala. Large letters are across the back of the room saying "Good Neighbors From the South". The class is making large wall maps, using slides and a projection machine.

They are expecting to have a very fine lecture from Merny Saveker, who has been a missionary in Guatemala for 25 years.

—Marjorie Musler, Low 8th.

OUR CAFETERIA

The Campbell Union Grammar School now serves a plate lunch including bread and milk, for 25 cents. In previous years the food has been served cafeteria style. Nearly 500 children eat in the cafeteria each day. It is a clean, neat, and very desirable place to eat. All food is purchased on a cash basis only.

—Joe Williams, Low 8th.

IMPORTANT WORK BEING DONE BY SCHOOL NURSES

There are now 1500 children enrolled in our school which was orginally built to accommodate 1000 students. With a crowded condition amounting to 50 percent, our school nurse is stressing the importance of good food and plenty of sleep to maintain health and build up a strong resistance against disease.

Where so many are together most of the school day, the importance of a smallpox vaccination and immunization against diphtheria which the County Health Department is planning at an early date for the students that would like this service, is, in my mind, a move in the right direction, to protect us against those diseases.

Also, we are going to have our eyes and ears tested in the near future.

—Audrey Lampman, High 8th.

Campbell Man Marries at Lodi

The St. John's Episcopal Church at Lodi was recently the scene of a double ring wedding ceremony in which Victor Albert Robinson, son of Mr. and Mrs. T. A. Robinson, claimed as his bride, Miss Sydney Corell Smith, daughter of Mr. and Mrs. W. Corell Smith of Lodi.

Given in marriage by her father, the bride was attired in a white wine wool suit with burgundy and white wine accessories. She carried a white Rainbow Bible marked by white and deep purple wild orchids.

Her sister, Miss Dorothy Helen Smith, who attended her, wore a gray suit with black accessories complimented by a spray corsage of deep pink roses.

William Robinson of Berkeley, brother of the bridegroom, performed the best man's duties.

The late afternoon rites were followed by a reception and buffet supper at the Lodi home of the bride's parents. For the affair the bride's mother chose a gray suit, while Mrs. Robinson, mother of the benedict, wore dark blue. Both mothers wore corsages of roses.

Both of the newlyweds are attending San Jose State College after a wedding trip to Carmel. The new Mrs. Robinson is a sophomore art major and is a member of Wood-Lo Assembly, Order of Rainbow, and Allenian.

The bridegroom, a senior student, is majoring in physical education and is a member of Beta Phi Sigma, Phi Epsilon Kappa honorary physical education organization, and Spartan Knights sophomore men's honorary group.

MOVES INTO NEW HOME

Mr. and Mrs. C. N. McCoy and their children have moved into their new home on N. Second St., which they purchased from Mr. and Mrs. Donald Snow. Newlyweds at Home in San Jose

San Jose will be the future home of Mr. and Mrs. Anthony J. Abate who were married recently at Trinity Episcopal Church in San Jose. They have returned from a wedding trip through Northern California and Oregon.

The bride, the former Miss Lois Frisch, is the daughter of Mr. and Mrs. Conrad Frisch. She attended Campbell Union High School and also San Jose State College. Her new husband is the son of Mr. and Mrs. Angelo Abate and has made his home in San Jose following his discharge from the Army.

For her wedding rites, the bride wore a satin gown styled with a fitted bodice and full skirt which ended in a train. With this she wore a fingertip veil which had been worn by her cousin, Mrs. Thomas Craven of Fresno, at her wedding. She carried a white orchid with bouvardia streamers on her white prayer book.

Her maid of honor, Miss Alma Valencia, wore a pink taffeta gown styled with marquisette yoke. Her other attendants were her sister, Mrs. Fred L. Giacomazzi; and the bridegroom's sister, Miss Marie Abate, who were gowned alike in blue frocks. All three attendants carried colonial bouquets of pink, blue and white blossoms.

Fred L. Giacomazzi was best man, and ushers were Walter Mazzone and Robert Skillman. The Rev. Bertram Bleil officiated before an altar decorated with white gladioli and lighted white tapers. Basket bouquets of baby white gladioli marked the pews.

Miss Ruth Cousins was vocalist at the rites.

A reception for members of the immediate families and close friends was held after the ceremony at the home of the bride's parents. Both mothers were attired in black gowns with orchid corsages.

A brown suit with brown and white accessories was the choice of the bride for her going away ensemble.

FARM NEWS
AGRICULTURAL EXTENSION SERVICE

LIVESTOCK NOT HARMED BY 2, 4-D

Pastures sprayed with 2, 4-D for weed control are not likely to be harmful to livestock or to people who eat meat or milk from animals fed on such pastures. Farm Advisor, L. C. Barnard, says this has been proven by experiments.

The new weed killer is not a poison like many of the new powerful insecticides which have to be handled with care about livestock or bees.

Recently, a pasture was sprayed with double the quantity of 2, 4-D required for weed control. Cattle and sheep grazed this pacture and showed no symptoms of discomfort or illness. Some of the cows were slaughtered and no unsual conditions caused by the 2, 4-D were revealed.

Mr. Barnard says scientists of the U. S. Department of Agriculture fed one cow a daily dose of about one-fifth of an ounce of 2, 4-D daily for more than three months without harming her. They found she carried a solution of 2, 4-D in her blood, but did not secrete it in her milk. From this experiment they draw the conclusion that pastures sprayed with 2, 4-D for weed control are not likely to be harmful to livestock or to humans.

Mr. Barnard warns, however that the experiment was with pure 2, 4-D and therefore does not preclude possible ill effects of commercial preparations which may contain impurities.

The local Agricultural Extension Service, 201 Post Office Bldg., San Jose, has free of charge a mimeograph on the use of 2, 4-D.

FEED EWES NOW FOR GOOD LAMBS

The time to start feeding for good lambs is the breeding season for the ewes. That is why sheep men say the results of a bad year always show up the following year.

Most flocks are now on field clean-up and the critical season for nutrition is between now and when the grass gets new growth.

To produce good lambs next pring the ewes must be mainained in good conditoin during reeding season and pregnancy Supplemental feeding should be practiced in connection with grazng where the range is poor and where it is practical to supplement.

Lamb producers who do not own their own lamb range will profit by having some definite plan for maintaining the ewes in good condition during the time range feed lack proper nutrition. This may mean irrigated pasture or supplemental feeding. Long-term contracts for pasture or feed at this critical time may solve the problem for some growers.

Fertility in sheep is also affected by condition of the ewes at breeding time. Good nutrition during pregnancy will help greatly to assure a big lamb crop. Importance of vitamin A in the normal reproduction of sheep, ample protein and phosphorus, and especially adequate protein supplement for ewes on dry range are discussed fully by R. F. Miller G. H. Hart and H. H. Cole in a bulletin of the College of Agriculture.

Information regarding the above subject may be received at the local Agricultural Extension Service office, 201 Post Office Bld., San Jose, says L. C. Barnard, Farm Advisor.

MASTITIS IS A HERD PROBLEM

Success in treating cows for mastitis depends much upon proper diagnosis and recognition of control of the disease as a herd problem, according to Dr. Kenneth G. McKay, specialist in veterinary science of the Agricultural Extension Service.

Exact knowledge of what organism causes the particular udder inflammation is the first step toward using the right treatment. The treatment of single cows only gives temporary relief without any guarantee of the other cows being protected.

Proper diagnosis means taking of samples in the correct manner and laboratory analyses of these samples. Following diagnosis, a prescribed manner of handling the herd, and treatment of affected individuals must be followed.

For further information on the above mentioned subject you may call on M. S. Beckley, of the local Agriculture Extension Service office, 201 Post Office Bldg., San Jose.

State Team To Play Texas

Fresh from its 44 to 6 trouncing of Willamette University, San Jose State College's 1946 varsity football team today began preparations for its invasion of Texas next Saturday night when it tackles the strong Hardin-Simmons eleven at Abilene.

In turning back the Bearcats at Spartan Stadium on Friday night, Coach Bill Hubbard revealed practically nothing except that he has power, passing, speed and plenty of good reserves. His men used very few plays and press box scouts saw nothing to take home.

It would be practically impossible to single out the outstanding players for recognition. Everybody looked good, and when it comes time to name his traveling squad Hubbard will have a big headache.

All three of Sparta's "T" formation quarterbacks, Jim Jackson, Pete Denevi and Chuck Hughes shone when they were playing. Their passing, timing, and execution of plays was brilliant to watch. In short, Hubbard has three ace field generals.

Slated for a big job against HSU is Frank Minini, a bruising, 215-pound fullback, who can run the ends as well as crack the line. Minini, college heavyweight boxing champion, steps the 100-yard dash in 10 seconds flat.

Minini's understudy is Allen Hardisty, first string fullback of the great St. Mary's Pre-Flight team of 1942. Hardisty would probably receive the starting nod on any other ball club. Allen is built like a halfback, but hits like a sledgehammer.

Increasing Hubbard's joy is news that Max Culver will probably be able to see action at right halfback against HSU. Culver, injured two weeks ago in practice, was an all-Southern California JC selection at Long Beach JC last year, where he scored 15 TD's during the 1945 season.

With or without Culver San Jose is strong at right half. Bert Robinson, who started against Willamette, is a letterman from the 1941 team and Hubbard rates him as potential All-Coast material. Robinson shines as a broken field runner.

Legion Dance A Big Success

By HENRY HOELLING

The gala American Legion dance sponsored by Campbell Post No. 596, held at Napredak Park last Saturday evening proved to be a big success.

Although there were not as many guests present as had been expected, it was believed by all the Campbell Legionnaires present that a fine time was had by all. The evening was full of fun and good dancing, not to mention the excellent spirit of comradeship shown by all who attended.

All of Campbell's surrounding cities were well represented throughout the evening's gayety. Many of the guests present were fans of Henry Panciano and his Jive Bombers, and many others expressed their favor of the fine band. The Jive Bombers began playing promptly at 8:00 p. m., and during the course of the evening played a wide selection of excellent dance music.

As the evening was nearing its end a door prize was drawn and presented. The prize consisted of a five-piece Corey coffee set in a beautiful shade of ruby colored glass. A second prize consisting of a case of beer was presented a few minutes later. The Jive Bombers took over for the balance of the evening by playing a select group of waltzes.

At midnight the last strains of an evening's fine music faded into eternity, and the guests departed in a manner of gayety which reflected their high spirits.

Miss Dorothy Merriman is advisor of the group and Mr. and Mrs. Klaude Block are assisting the young people with the social events.

The new Girl Scout troop will meet in the Bay Scout Hut located on the school grounds, every Tuesday from 3:30 to 5:00 p. m.

Mrs. W. R. Noble and Mrs. Frank Mann, San Jose Girl Scout Inc. field directors, are giving a group leadership course at the Boy Scout Hut on Friday, 9:30 to 12:30, Oct. 4, 11, 18, and 25, for all leaders and troop committee members. CAMPBELL GRADUATES ATTEND FRESHMEN CAMP

Among Campbell graduates of last June who attended the San Jose State freshmen camp at Asilomar Conference grounds near Monterey last week were Doris Raggio, Gloria Kuehne, Ray Flagg, Walter Trask, Lowell Gratton, Mary Lynne Thompson, Donna Pannekoek, Ruby Simmons, Ellen Pearson and Elaine Scimeca. The 320 students who attended the camp represented about one-seventh of the entering freshmen, as about 2000 are enrolled.

Entertainment at the camp was provided by swimming, sports and dancing. Valuable tips about campus activities, teachers and traditions were provided by organized "bull" sessions during the morning.

A train was chartered to transport the students to Asilomar, and five Greyhound busses to bring them back.

WORLD WIDE COMMUNION SERVICE TO BE OBSERVED

(This is the first of four sketches of the local political candidates in the coming election.)

In Santa Clara, on January 15, 1893, was born a child destined to become a prominent figure in the Township of Campbell. His name was Martin Samuel Walsh. Sandy haired Mr. Walsh had parents who came straight from the Emeral Isle of Ireland, and this no doubt contributes immeasurably to his ability as a talker. His family was one of four boys whose life abounded with Irish wit.

He graduated with honors in law from Santa Clara University in 1918. While there he had distinguished himself by his ability as a debater, and his picture hangs in the hall at the university in tribute to one of his battles with words.

Mr. Walsh is campaigning this fall for office of Justice of the Peace. He is vitally interested in the affairs of Campbell and has served on many committees. He has been manager of the Community Chest for the past five years, and an active campaigner during the war for the continuance of Old Settlers' Day. Due in a large part to his efforts the celebration was not dropped during the past few years. He is also a member of the Eagles lodge and the Kiwanis Club.

As a hobby he has the wonderful one of traveling. He has made tours through as many of the National Parks as possible, and has been to Canada and Mexico. He married Mae Hatch from Los Gatos.

Mr. Walsh is a familiar and well liked person about Campbell.

New Teachers Needed Says AFL Chief

Urging a "Yes" vote on Proposition 3 in the November general election, C. J. "Neil" Haggerty, executive-secretary of the California State Federation of Labor and a member of the State Board of Education, this week revealed that California's state colleges graduated 300 per cent more teacher candidates ten years ago than they do today.

"In 1935," Haggerty declared, "1187 graduates of our state colleges studied for teaching careers and received their credentials. In 1945, the statewide total had dropped to 392."

Haggerty said, "California's desperate situation is indicated by these figures, especially when we consider them in the light of an admitted need for 40,000 new teachers in California during the next eight years."

Proposition 3, Haggerty continued, will overcome the teacher shortage by increasing minimum salaries for public school teachers to $2400 a year, thereby making teaching a more attractive profession. "The present minimum salary—a mere $150 a month—would be increased without adding to local taxes. State funds, already adequate and earmarked for educational purposes, would finance the measure."

Pointing out that State colleges are normally the main source of new teacher material, Haggerty added that recruiting of new teachers "is only half the problem". He said it is equally difficult to keep present teachers on their jobs, because industry and business offer much higher salaries and lure teachers away from the schools.

The California State Federation of Labor adopted a unanimous resolution in favor of Proposition 3 at its recent convention in San Francisco.

Veterans News

Nearly 170,000 persons receiving disability and death compensation or pension payments through the Veterans Administration in California, Arizona and Nevada, will see a 20 percent increase in their checks October 1.

This in general includes all World War I and II veterans or their dependents receiving payments and most recipients from the Spanish-American War.

Veterans disabled in peacetime service also are entitled to an increase under a separate provision which becomes effective Oct. 1, 1946, and will be reflected in checks mailed Nov. 1.

Under the new rate, a person who has been receiving $11.50 a month will get $13.80, and one who got $115 will receive $138. A widow of a World War I or II veteran who died as a result of war service will receive $60 a month instead of $50.

★ ★ ★

Question: Does the 20 percent increase in compensation apply to statutory awards and other special awards and allowances?

Answer: Yes.

★ ★ ★

Q. Does the new increase in compensation apply to subsistence payments to veterans attending school?

A. No.

★ ★ ★

Q. How long do I have to take advantage of free education under the Servicemen's Readjustment Act?

A. Four years from the official end of the war, when that is declared.

★ ★ ★

Q. What is meant by the term "service-aggravated disability?"

A. A service-aggravated disability is a disabling condition resulting from an injury or disease existing prior to service, which was made worse during the veteran's military or naval service.

★ ★ ★

Q. If I obtain a real estate loan to purchase a farm, and it is guaranteed by VA, may I also obtain a VA guarantee on a loan to purchase machinery, livestock, seed and other farm equipment?

A. Yes, you may obtain a combination of real estate and non-real estate loans. However, the percentage of the guarantee maximum used by a veteran in obtaining one type of loan reduces by that percentage his entitlement to a guarantee of another type loan. For example, if a veteran obtained a farm real estate loan guarantee of $2000, his non-real estate guarantee maximum would be $1000.

Pioneering Opportunities

Those who think the days of pioneering have gone forever will be surprised to learn that they are just beginning. For "ambitious, agriculturally inclined men and women of good character and responsibility", a new land is open and colonizers are invited to settle and clear the land which will be offered free. A release from the Republica del Ecuador to the North American and British Press tells of the amazing opportunity. It reads:

"The Department of Public Lands and Colonization of the Ministery of Economy of the Government of Ecuador, South America, announces that 125,000 acres of rich and potentially productive, but uncleared land in the Santo Domingo de los Colorados area of Ecuador, is now available to North American and British settlers. Each adult settler may obtain 50 hectares or approximately 124 acres of this land, free except for modest commission-transfer charges, to approved applicants.

"This land concession is authorized by Presidential Decree and contracted by the Government Department of Public Lands and Colonization, the Minister of Economy and the Minister of Public Works. Dr. J. M. Sheppard (American) and Prof. Arturo Montesinos (Ecuadorean) are appointed as Government Intermediaries to publicise, distribute and allot this land to satisfactory British and North American citizens.

"Elevation of land is over 600 feet. Average temperature from 72 to 88 degrees F. Location: Less than 125 miles from Quito, capital city of the republic, with road connections to and, or adjoining an all-weather highway now linked with Quito, soon to be linked, in the opposite direction, with Esmeraldas on the Pacific coast. Ample rainfall and excellent virgin soil, testing equal to that of Java, long recognized as the best or near-best on earth.

"Stands of top grade tropical timber are to be found upon the land. As the concession is close to rivers and interspersed with streams, an abundance of water is available. A recently constructed hospital is located in the nearby town of Santo Domingo de los Colorados which also has daily mail service, telegraphic connections and police protection.

"Settlers will be allowed to bring in all personal effects and agricultural implements free of customs duty charges.

"Ecuador, with but three million inhabitants, needs and invites colonization by pioneer-minded, ambitious agriculturally inclined men and women of good character and responsibility.

"Interested parties may obtain soil and health report, map of Ecuador and this land concession, list of tropical fruits, vegetables and paying crops recommended for the area and application blank for land reservation, without charge or obligation, by addressing Dr. J. M. Sheppard, Co-Intermediary, Casilla 315, Quito, Ecuador, South America."

"HASTY HEART" NEW YORK CAST OUTSTANDING

The cast of "The Hasty Heart", the John Patrick comedy which has a performance in San Jose on Sunday evening, Oct. 13, is all-star, from the leads to the most minor role. Whitner Bissell, in the part of Lachie, the dour Scotsman, has been featured in many Broadway hits. He was two years with Eva Le Gallienne, during which he appeared in "Lilliom", and "Romeo and Juliet", played in support of such stars as Jane Cowl, Tallulah Bankhead, Flora Robson, was juvenile lead with Frederic March in "The American Way", with Betty Field in "Two On An Island", and was featured in motion pictures in "Holy Matrimony" and "Destination Tokyo".

During the war Sergeant Bissell was in the United States Air Force, and assigned to the AAF show "Winged Victory". His role in "The Hasty Heart" is one of his finest.

LOOK BEFORE YOU STEP

Failure to look both ways before stepping into the street was responsible for 88 per cent of the pedestrian accidents studied in a recent survey made by New York State. Before entering a traffic lane, "Take It Easy" and look both ways, the California State Automobile Association advises.

Campbell Court Notes

By Judge Blaine

A family of prune pickers had just been paid in full for the season's contracts in the sum of about $2400. The family head had cashed all the checks and had all the money in a big roll of bills. Then he decided to go on a spree.

He woke up in jail without a dollar in his possession. In a few minutes of clear thinking he became perhaps the most sober he had ever been in his life. While he was drunk had somebody stolen all that hard-earned money?

But it had happened that an arresting officer had picked up the picker for "drunk in county" just in time. The roll of bills had been still in his possession and been taken from him by friendly hands.

In pleading guilty in Campbell court and paying a fine the picker was all smiles. As he folded his receipt he said, "Judge, I think I'm the luckiest man in California."

A review of the "fee book" has revealed that the number of traffic fines collected by Campbell court in July broke all local records. And no wonder. According to report the traffic officer working in Campbell Township during July made more arrests in that month than all the other members of the Santa Clara County squad taken together.

This officer had given the Town of Campbell virtually city service. Not all the arrests seemed reasonable. In fact, some appeared decidedly unreasonable. But to distinguish between reasonable and the unreasonable is partly what a court is for.

The court spotlight for September was chiefly on civil suits for merchandising debts and on arrests for unkept tempers. "Keep your temper; nobody wants it." And it helps to keep the peace to pay just bills. The local merchant needs his money and wants it. Obviously, payment of just bills helps a merchant to keep his own temper. Thus peace is promoted all around.

The City of Oakland, Alameda County seat, was incorporated May 4, 1852.

THE SUMMONS

Ah for the life of the vagabond!
Ah for the life of the free!
For the happy life of the voyager
And the smell of the tangy sea.
Hark to the ring of the wild bird's call!
Hark to the wind on the plain!
To its whistle, through the cotton trees
And the patter of falling rain.

My heart is winging through all space,
To countries far away.
To temples in the Orient.
Into Calcutta's bay.
Through native towns in Africa.
And 'neath the moon's pale wane,
Apple blossoms blown along
A lonely country lane.

Ah for the life of the vagabond!
Ah for the life of the free!
For the happy life of the voyager
And the smell of the tangy sea.
Hark to the sound of adventure's call,
The call I know so well,
For it comes in Spring of every year
And folds me in its spell.

—Mary Lynne Thompson.
